

NT-C-010 | Video Editing | Course Knowledge Profile

Identity, purpose, prerequisites, scope and boundaries

Category	Design & Creative
Target learners	Learners targeting digital-content, social-media and multimedia editing roles.
Prerequisites	Basic computer use; storytelling interest and access to suitable hardware.
Approved duration	Approved working range: 12-16 weeks / 140-180 guided hours.
Final outcome	Organise, edit, finish and export engaging video content with clean audio, colour, titles and platform-appropriate delivery.
Assessment profile	Creative

Approved tools / platforms

Adobe Premiere Pro, After Effects basics, audio and graphics tools; exact licensed software and versions to confirm.

Knowledge boundaries

Include	Quality rule	Exclude / escalate
The eight approved modules, four sections, named tools, projects and mapped entry-level roles.	Require the brief, working/source files, design rationale, iteration evidence, technical quality and accessible export.	Do not treat a copied template or final export alone as proof of original process and ownership.
Current product/platform procedures only when version and date are known.	Use primary documentation and record the source version.	Do not invent current commands, prices, tax rates, policies or certification status.
Evidence-based career guidance.	Cite tests, projects, capstone, viva and verified resume evidence.	No guaranteed job, placement, salary, interview or employer claim.

LLM answer pattern: identify the course and version, answer from approved records, cite record IDs, distinguish verified facts from guidance, and state any missing evidence.

NT-C-010 | Video Editing | NT-C-010-S01 Deep Knowledge

Modules 1-2 | objectives, concepts, evidence and remediation

Section competency	Story, shots, continuity, workflow, codecs; Import, bins, proxies, sync, backups
Completion evidence	Structured edit plan; Organised project
Section weight	20% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 1 - Editing foundation

Objective: Story, shots, continuity, workflow, codecs

Observable evidence: Structured edit plan

Concept	Approved knowledge statement	Application behaviour	Evidence
Story	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when story is appropriate; apply it in a Video Editing task; verify the result.	Structured edit plan
shots	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when shots is appropriate; apply it in a Video Editing task; verify the result.	Structured edit plan
continuity	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when continuity is appropriate; apply it in a Video Editing task; verify the result.	Structured edit plan
workflow	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when workflow is appropriate; apply it in a Video Editing task; verify the result.	Structured edit plan
codecs	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when codecs is appropriate; apply it in a Video Editing task; verify the result.	Structured edit plan

Module 2 - Media management

Objective: Import, bins, proxies, sync, backups

Observable evidence: Organised project

Concept	Approved knowledge statement	Application behaviour	Evidence
Import	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when import is appropriate; apply it in a Video Editing task; verify the result.	Organised project
bins	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when bins is appropriate; apply it in a Video Editing task; verify the result.	Organised project
proxies	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when proxies is appropriate; apply it in a Video Editing task; verify the result.	Organised project
sync	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when sync is appropriate; apply it in a Video Editing task; verify the result.	Organised project
backups	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when backups is appropriate; apply it in a Video Editing task; verify the result.	Organised project

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Structured edit plan; Organised project, return to Modules 1-2, complete one guided practice and then use a new equivalent test form.

NT-C-010 | Video Editing | NT-C-010-S02 Deep Knowledge

Modules 3-4 | objectives, concepts, evidence and remediation

Section competency	Cuts, trim tools, pacing, B-roll; Dialogue cleanup, music, levels, mixing
Completion evidence	Short narrative edit; Balanced audio sequence
Section weight	25% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 3 - Core editing

Objective: Cuts, trim tools, pacing, B-roll

Observable evidence: Short narrative edit

Concept	Approved knowledge statement	Application behaviour	Evidence
Cuts	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when cuts is appropriate; apply it in a Video Editing task; verify the result.	Short narrative edit
trim tools	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when trim tools is appropriate; apply it in a Video Editing task; verify the result.	Short narrative edit
pacing	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when pacing is appropriate; apply it in a Video Editing task; verify the result.	Short narrative edit
B-roll	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when b-roll is appropriate; apply it in a Video Editing task; verify the result.	Short narrative edit

Module 4 - Audio

Objective: Dialogue cleanup, music, levels, mixing

Observable evidence: Balanced audio sequence

Concept	Approved knowledge statement	Application behaviour	Evidence
Dialogue cleanup	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when dialogue cleanup is appropriate; apply it in a Video Editing task; verify the result.	Balanced audio sequence
music	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when music is appropriate; apply it in a Video Editing task; verify the result.	Balanced audio sequence
levels	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when levels is appropriate; apply it in a Video Editing task; verify the result.	Balanced audio sequence
mixing	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when mixing is appropriate; apply it in a Video Editing task; verify the result.	Balanced audio sequence

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Short narrative edit; Balanced audio sequence, return to Modules 3-4, complete one guided practice and then use a new equivalent test form.

NT-C-010 | Video Editing | NT-C-010-S03 Deep Knowledge

Modules 5-6 | objectives, concepts, evidence and remediation

Section competency	Correction, matching, scopes, basic grade; Text, graphics, keyframes, motion basics
Completion evidence	Consistent graded sequence; Title and motion package
Section weight	25% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 5 - Colour

Objective: Correction, matching, scopes, basic grade

Observable evidence: Consistent graded sequence

Concept	Approved knowledge statement	Application behaviour	Evidence
Correction	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when correction is appropriate; apply it in a Video Editing task; verify the result.	Consistent graded sequence
matching	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when matching is appropriate; apply it in a Video Editing task; verify the result.	Consistent graded sequence
scopes	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when scopes is appropriate; apply it in a Video Editing task; verify the result.	Consistent graded sequence
basic grade	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when basic grade is appropriate; apply it in a Video Editing task; verify the result.	Consistent graded sequence

Module 6 - Titles & motion

Objective: Text, graphics, keyframes, motion basics

Observable evidence: Title and motion package

Concept	Approved knowledge statement	Application behaviour	Evidence
Text	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when text is appropriate; apply it in a Video Editing task; verify the result.	Title and motion package
graphics	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when graphics is appropriate; apply it in a Video Editing task; verify the result.	Title and motion package
keyframes	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when keyframes is appropriate; apply it in a Video Editing task; verify the result.	Title and motion package
motion basics	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when motion basics is appropriate; apply it in a Video Editing task; verify the result.	Title and motion package

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Consistent graded sequence; Title and motion package, return to Modules 5-6, complete one guided practice and then use a new equivalent test form.

NT-C-010 | Video Editing | NT-C-010-S04 Deep Knowledge

Modules 7-8 | objectives, concepts, evidence and remediation

Section competency	Captions, aspect ratios, export, QC; Brief, edit, revision, delivery, case study
Completion evidence	Multi-platform exports; Finished portfolio video
Section weight	30% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 7 - Delivery

Objective: Captions, aspect ratios, export, QC

Observable evidence: Multi-platform exports

Concept	Approved knowledge statement	Application behaviour	Evidence
Captions	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when captions is appropriate; apply it in a Video Editing task; verify the result.	Multi-platform exports
aspect ratios	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when aspect ratios is appropriate; apply it in a Video Editing task; verify the result.	Multi-platform exports
export	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when export is appropriate; apply it in a Video Editing task; verify the result.	Multi-platform exports
QC	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when qc is appropriate; apply it in a Video Editing task; verify the result.	Multi-platform exports

Module 8 - Portfolio capstone

Objective: Brief, edit, revision, delivery, case study

Observable evidence: Finished portfolio video

Concept	Approved knowledge statement	Application behaviour	Evidence
Brief	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when brief is appropriate; apply it in a Video Editing task; verify the result.	Finished portfolio video
edit	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when edit is appropriate; apply it in a Video Editing task; verify the result.	Finished portfolio video
revision	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when revision is appropriate; apply it in a Video Editing task; verify the result.	Finished portfolio video
delivery	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when delivery is appropriate; apply it in a Video Editing task; verify the result.	Finished portfolio video
case study	A defined competency within Video Editing. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when case study is appropriate; apply it in a Video Editing task; verify the result.	Finished portfolio video

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Multi-platform exports; Finished portfolio video, return to Modules 7-8, complete one guided practice and then use a new equivalent test form.

NT-C-010 | Video Editing | Skill Ontology & Dependency Map

Atomic skills, learning order and evidence strength

Skill ID	Competency	Depends on	Evidence	Type
NT-C-010-SK01	Editing foundation	Prerequisite foundation	Structured edit plan	Critical
NT-C-010-SK02	Media management	M01 plus earlier foundations	Organised project	Critical
NT-C-010-SK03	Core editing	M02 plus earlier foundations	Short narrative edit	Supporting
NT-C-010-SK04	Audio	M03 plus earlier foundations	Balanced audio sequence	Supporting
NT-C-010-SK05	Colour	M04 plus earlier foundations	Consistent graded sequence	Supporting
NT-C-010-SK06	Titles & motion	M05 plus earlier foundations	Title and motion package	Critical
NT-C-010-SK07	Delivery	M06 plus earlier foundations	Multi-platform exports	Supporting
NT-C-010-SK08	Portfolio capstone	M07 plus earlier foundations	Finished portfolio video	Critical

Evidence-strength hierarchy

Strength	Evidence source	Use
High	Trainer-observed practical, viva, working source/project files and reproducible output.	May support verified mastery when rubric threshold is met.
Medium	Scored mock tests, reviewed assignments and documented portfolio artifacts.	Supports mastery with corroboration.
Low	Resume claim, self-report, attendance or video completion without demonstration.	May trigger verification; cannot alone support Apply Now.

CareerTours must not treat attendance, time spent or content opened as skill mastery.

NT-C-010 | Video Editing | Assessment Knowledge & Sample Items

Non-live examples for LLM training and evaluation

Sample ID	Type	Question	Approved answer / rubric anchor
NT-C-010-S01-EX01	Evidence/application	What evidence best demonstrates the combined competency of Editing foundation and Media management?	The learner should provide Structured edit plan; Organised project and explain how the work applies Story, shots, continuity, workflow, codecs; Import, bins, proxies, sync, backups. Recall alone is insufficient.
NT-C-010-S01-EX02	Scenario/remediation	A learner reports completing Media management but cannot produce Organised project. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-010-S01, request Organised project, and allow a new equivalent test only after remediation.
NT-C-010-S02-EX01	Evidence/application	What evidence best demonstrates the combined competency of Core editing and Audio?	The learner should provide Short narrative edit; Balanced audio sequence and explain how the work applies Cuts, trim tools, pacing, B-roll; Dialogue cleanup, music, levels, mixing. Recall alone is insufficient.
NT-C-010-S02-EX02	Scenario/remediation	A learner reports completing Audio but cannot produce Balanced audio sequence. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-010-S02, request Balanced audio sequence, and allow a new equivalent test only after remediation.
NT-C-010-S03-EX01	Evidence/application	What evidence best demonstrates the combined competency of Colour and Titles & motion?	The learner should provide Consistent graded sequence; Title and motion package and explain how the work applies Correction, matching, scopes, basic grade; Text, graphics, keyframes, motion basics. Recall alone is insufficient.
NT-C-010-S03-EX02	Scenario/remediation	A learner reports completing Titles & motion but cannot produce Title and motion package. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-010-S03, request Title and motion package, and allow a new equivalent test only after remediation.
NT-C-010-S04-EX01	Evidence/application	What evidence best demonstrates the combined competency of Delivery and Portfolio capstone?	The learner should provide Multi-platform exports; Finished portfolio video and explain how the work applies Captions, aspect ratios, export, QC; Brief, edit, revision, delivery, case study. Recall alone is insufficient.
NT-C-010-S04-EX02	Scenario/remediation	A learner reports completing Portfolio capstone but cannot produce Finished portfolio video. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-010-S04, request Finished portfolio video, and allow a new equivalent test only after remediation.

Live bank rule: Generate at least three times the live quantity for each section using the approved Creative blueprint. Human-review every scored item before initial production release.

NT-C-010 | Video Editing | Labs, Projects & Scoring Rubrics

Practical proof of learning and ownership

Level	Approved project	Skills evidenced	Required deliverables
Mini 1	Interview or testimonial edit	Dialogue, B-roll, audio	Brief; working/source file or reproducible environment; output; validation notes; reflection.
Mini 2	Short social-media campaign	Pacing, titles, multi-format export	Brief; working/source file or reproducible environment; output; validation notes; reflection.
Capstone	3-5 minute branded/story project	Full post-production workflow	Brief; working/source file or reproducible environment; output; validation notes; reflection.

Standard project rubric

Dimension	Weight	What earns credit
Problem framing	15%	Clear objective, user/business need, assumptions and success criteria.
Technical/design accuracy	25%	Correct methods, appropriate tools and sound decisions.
Completeness	15%	Required features, assets, data or workflow are present.
Testing and validation	15%	Important normal, edge, quality or failure cases are checked.
Evidence and reproducibility	15%	Source/working files, setup, inputs, outputs and version information are available.
Documentation	5%	Concise structure, instructions and limitations.
Viva / ownership	10%	Learner can explain decisions, demonstrate work and respond to a change request.

Require the brief, working/source files, design rationale, iteration evidence, technical quality and accessible export.

NT-C-010 | Video Editing | Career Roles, Evidence & Gap Actions

Explainable top-three occupation matching

Rank	Occupation	Default weighted skills	Minimum evidence	Gap action
1	Junior Video Editor	Editing 25% [critical]; audio 25% [critical]; colour 25%; export 25%	Finished reel and project files	If a critical skill is below 60 or finished reel and project files is missing, return Improve First or Needs Evidence with the linked module/project.
2	Content Video Editor	Short-form formats 34% [critical]; captions 33% [critical]; pacing 33%	Multi-platform content set	If a critical skill is below 60 or multi-platform content set is missing, return Improve First or Needs Evidence with the linked module/project.
3	Multimedia Editor - Junior	Video 34% [critical]; motion basics 33% [critical]; graphics integration 33%	Mixed-media portfolio	If a critical skill is below 60 or mixed-media portfolio is missing, return Improve First or Needs Evidence with the linked module/project.

Course readiness	45% section mocks + 20% mini projects + 25% capstone + 10% viva.
Role readiness	45% role-relevant mastery + 25% projects/capstone + 20% aligned mocks + 10% verified resume evidence.
Evidence confidence	Show separately; Apply Now requires at least 70.
Resume extraction	Use only relevant skills, projects, education, experience and portfolio evidence; minimise personal data before external model processing.

A student may be Apply Now for one mapped occupation and Improve First for another. Return independent evidence and gaps for each role.

NT-C-010 | Video Editing | FAQs, Misconceptions & LLM Response Pack

Course-specific retrieval and response patterns

Approved FAQ	Answer
Who is Video Editing for?	Learners targeting digital-content, social-media and multimedia editing roles.
What should I know before starting?	Basic computer use; storytelling interest and access to suitable hardware.
How long is the approved learning journey?	Approved working range: 12-16 weeks / 140-180 guided hours.
What will I be able to demonstrate?	Organise, edit, finish and export engaging video content with clean audio, colour, titles and platform-appropriate delivery.
Does completion guarantee a job?	No. Completion and role readiness are evidence-based guidance; employment, placement, salary and employer selection are not guaranteed.
What if I fail a section?	CareerTours identifies the failed skill tags and module, assigns targeted practice, and permits an equivalent retest after remediation.

Misconception	Approved correction
Attendance proves mastery	False - require tests and observable practical/project evidence.
One total score proves every role fit	False - calculate each occupation using its weighted skills and evidence.
The LLM can add missing details	False - retrieve approved records or state that evidence is insufficient.
Course completion guarantees employment	False - never claim guaranteed job, placement, salary or interview.
Video Editing knowledge never changes	False - version-sensitive tools, laws, taxes, security and platform procedures require review.
