The eight approved modules, four sections, named tools, projects and mapped entry-level roles.	Require audience intent, compliant creative, conversion definitions, measurement, testing and evidence-based optimisation.	Do not promise reach, rankings, leads, revenue or monetisation; distinguish measured results from projections.
Current product/platform procedures only when version and date are known.	Use primary documentation and record the source version.	Do not invent current commands, prices, tax rates, policies or certification status.
Evidence-based career guidance.	Cite tests, projects, capstone, viva and verified resume evidence.	No guaranteed job, placement, salary, interview or employer claim.

LLM answer pattern: identify the course and version, answer from approved records, cite record IDs, distinguish verified facts from guidance, and state any missing evidence.
