

NT-C-034 | Multimedia | Course Knowledge Profile

Identity, purpose, prerequisites, scope and boundaries

Category	Design & Creative
Target learners	Creative learners seeking combined graphics, video, audio and motion skills.
Prerequisites	Basic computer use and access to suitable creative hardware.
Approved duration	20-24 weeks / 240-300 guided hours.
Final outcome	Produce a cohesive multimedia campaign using image, vector, video, audio and motion workflows.
Assessment profile	Creative

Approved tools / platforms

Image, vector, video, audio and motion-graphics tools; exact licensed software and versions must be recorded.

Knowledge boundaries

Include	Quality rule	Exclude / escalate
The eight approved modules, four sections, named tools, projects and mapped entry-level roles.	Require the brief, working/source files, design rationale, iteration evidence, technical quality and accessible export.	Do not treat a copied template or final export alone as proof of original process and ownership.
Current product/platform procedures only when version and date are known.	Use primary documentation and record the source version.	Do not invent current commands, prices, tax rates, policies or certification status.
Evidence-based career guidance.	Cite tests, projects, capstone, viva and verified resume evidence.	No guaranteed job, placement, salary, interview or employer claim.

LLM answer pattern: identify the course and version, answer from approved records, cite record IDs, distinguish verified facts from guidance, and state any missing evidence.

NT-C-034 | Multimedia | NT-C-034-S01 Deep Knowledge

Modules 1-2 | objectives, concepts, evidence and remediation

Section competency	Composition, colour, typography and storytelling; Retouching, compositing and export
Completion evidence	Design exercises; Image series
Section weight	20% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 1 - Design principles

Objective: Composition, colour, typography and storytelling

Observable evidence: Design exercises

Concept	Approved knowledge statement	Application behaviour	Evidence
Composition	The arrangement of visual elements to guide attention and communicate meaning. In Multimedia, it must be demonstrated through an observable task, not only recalled as a definition.	Explain when composition is appropriate; apply it in a Multimedia task; verify the result.	Design exercises
colour	The controlled use of hue, value and contrast for communication, consistency and accessibility. In Multimedia, it must be demonstrated through an observable task, not only recalled as a definition.	Explain when colour is appropriate; apply it in a Multimedia task; verify the result.	Design exercises
typography	The structured use of type to support hierarchy, readability and visual meaning. In Multimedia, it must be demonstrated through an observable task, not only recalled as a definition.	Explain when typography is appropriate; apply it in a Multimedia task; verify the result.	Design exercises
storytelling	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when storytelling is appropriate; apply it in a Multimedia task; verify the result.	Design exercises

Module 2 - Image editing

Objective: Retouching, compositing and export

Observable evidence: Image series

Concept	Approved knowledge statement	Application behaviour	Evidence
Retouching	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when retouching is appropriate; apply it in a Multimedia task; verify the result.	Image series
compositing	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when compositing is appropriate; apply it in a Multimedia task; verify the result.	Image series
export	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when export is appropriate; apply it in a Multimedia task; verify the result.	Image series

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Design exercises; Image series, return to Modules 1-2, complete one guided practice and then use a new equivalent test form.

NT-C-034 | Multimedia | NT-C-034-S02 Deep Knowledge

Modules 3-4 | objectives, concepts, evidence and remediation

Section competency	Illustration, logos and identity assets; Media organisation, cuts, pacing and delivery
Completion evidence	Brand assets; Edited video
Section weight	25% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 3 - Vector and branding

Objective: Illustration, logos and identity assets

Observable evidence: Brand assets

Concept	Approved knowledge statement	Application behaviour	Evidence
Illustration	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when illustration is appropriate; apply it in a Multimedia task; verify the result.	Brand assets
logos	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when logos is appropriate; apply it in a Multimedia task; verify the result.	Brand assets
identity assets	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when identity assets is appropriate; apply it in a Multimedia task; verify the result.	Brand assets

Module 4 - Video editing

Objective: Media organisation, cuts, pacing and delivery

Observable evidence: Edited video

Concept	Approved knowledge statement	Application behaviour	Evidence
Media organisation	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when media organisation is appropriate; apply it in a Multimedia task; verify the result.	Edited video
cuts	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when cuts is appropriate; apply it in a Multimedia task; verify the result.	Edited video
pacing	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when pacing is appropriate; apply it in a Multimedia task; verify the result.	Edited video
delivery	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when delivery is appropriate; apply it in a Multimedia task; verify the result.	Edited video

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Brand assets; Edited video, return to Modules 3-4, complete one guided practice and then use a new equivalent test form.

NT-C-034 | Multimedia | NT-C-034-S03 Deep Knowledge

Modules 5-6 | objectives, concepts, evidence and remediation

Section competency	Recording basics, cleanup, mix and sync; Keyframes, text animation and compositing
Completion evidence	Finished audio; Motion piece
Section weight	25% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 5 - Audio

Objective: Recording basics, cleanup, mix and sync

Observable evidence: Finished audio

Concept	Approved knowledge statement	Application behaviour	Evidence
Recording basics	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when recording basics is appropriate; apply it in a Multimedia task; verify the result.	Finished audio
cleanup	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when cleanup is appropriate; apply it in a Multimedia task; verify the result.	Finished audio
mix	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when mix is appropriate; apply it in a Multimedia task; verify the result.	Finished audio
sync	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when sync is appropriate; apply it in a Multimedia task; verify the result.	Finished audio

Module 6 - Motion graphics

Objective: Keyframes, text animation and compositing

Observable evidence: Motion piece

Concept	Approved knowledge statement	Application behaviour	Evidence
Keyframes	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when keyframes is appropriate; apply it in a Multimedia task; verify the result.	Motion piece
text animation	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when text animation is appropriate; apply it in a Multimedia task; verify the result.	Motion piece
compositing	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when compositing is appropriate; apply it in a Multimedia task; verify the result.	Motion piece

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Finished audio; Motion piece, return to Modules 5-6, complete one guided practice and then use a new equivalent test form.

NT-C-034 | Multimedia | NT-C-034-S04 Deep Knowledge

Modules 7-8 | objectives, concepts, evidence and remediation

Section competency	Animation or 3D concepts and pipeline awareness; Brief, production, revision and presentation
Completion evidence	Short experiment; Multimedia campaign
Section weight	30% of the weighted mock-test average
Assessment	8 knowledge items (20 marks) + 2 critique/scenario items (20) + 1 timed artifact brief with rubric (60)

Module 7 - 2D/3D foundation

Objective: Animation or 3D concepts and pipeline awareness

Observable evidence: Short experiment

Concept	Approved knowledge statement	Application behaviour	Evidence
Animation	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when animation is appropriate; apply it in a Multimedia task; verify the result.	Short experiment
3D concepts	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when 3d concepts is appropriate; apply it in a Multimedia task; verify the result.	Short experiment
pipeline awareness	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when pipeline awareness is appropriate; apply it in a Multimedia task; verify the result.	Short experiment

Module 8 - Portfolio capstone

Objective: Brief, production, revision and presentation

Observable evidence: Multimedia campaign

Concept	Approved knowledge statement	Application behaviour	Evidence
Brief	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when brief is appropriate; apply it in a Multimedia task; verify the result.	Multimedia campaign
production	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when production is appropriate; apply it in a Multimedia task; verify the result.	Multimedia campaign
revision	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when revision is appropriate; apply it in a Multimedia task; verify the result.	Multimedia campaign
presentation	A defined competency within Multimedia. The learner must explain its purpose, apply it in an appropriate scenario, verify the result and produce the specified evidence.	Explain when presentation is appropriate; apply it in a Multimedia task; verify the result.	Multimedia campaign

Remediation: If the learner cannot explain the purpose, complete the stated task or provide Short experiment; Multimedia campaign, return to Modules 7-8, complete one guided practice and then use a new equivalent test form.

NT-C-034 | Multimedia | Skill Ontology & Dependency Map

Atomic skills, learning order and evidence strength

Skill ID	Competency	Depends on	Evidence	Type
NT-C-034-SK01	Design principles	Prerequisite foundation	Design exercises	Critical
NT-C-034-SK02	Image editing	M01 plus earlier foundations	Image series	Critical
NT-C-034-SK03	Vector and branding	M02 plus earlier foundations	Brand assets	Supporting
NT-C-034-SK04	Video editing	M03 plus earlier foundations	Edited video	Supporting
NT-C-034-SK05	Audio	M04 plus earlier foundations	Finished audio	Supporting
NT-C-034-SK06	Motion graphics	M05 plus earlier foundations	Motion piece	Critical
NT-C-034-SK07	2D/3D foundation	M06 plus earlier foundations	Short experiment	Supporting
NT-C-034-SK08	Portfolio capstone	M07 plus earlier foundations	Multimedia campaign	Critical

Evidence-strength hierarchy

Strength	Evidence source	Use
High	Trainer-observed practical, viva, working source/project files and reproducible output.	May support verified mastery when rubric threshold is met.
Medium	Scored mock tests, reviewed assignments and documented portfolio artifacts.	Supports mastery with corroboration.
Low	Resume claim, self-report, attendance or video completion without demonstration.	May trigger verification; cannot alone support Apply Now.

CareerTours must not treat attendance, time spent or content opened as skill mastery.

NT-C-034 | Multimedia | Assessment Knowledge & Sample Items

Non-live examples for LLM training and evaluation

Sample ID	Type	Question	Approved answer / rubric anchor
NT-C-034-S01-EX01	Evidence/application	What evidence best demonstrates the combined competency of Design principles and Image editing?	The learner should provide Design exercises; Image series and explain how the work applies Composition, colour, typography and storytelling; Retouching, compositing and export. Recall alone is insufficient.
NT-C-034-S01-EX02	Scenario/remediation	A learner reports completing Image editing but cannot produce Image series. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-034-S01, request Image series, and allow a new equivalent test only after remediation.
NT-C-034-S02-EX01	Evidence/application	What evidence best demonstrates the combined competency of Vector and branding and Video editing?	The learner should provide Brand assets; Edited video and explain how the work applies Illustration, logos and identity assets; Media organisation, cuts, pacing and delivery. Recall alone is insufficient.
NT-C-034-S02-EX02	Scenario/remediation	A learner reports completing Video editing but cannot produce Edited video. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-034-S02, request Edited video, and allow a new equivalent test only after remediation.
NT-C-034-S03-EX01	Evidence/application	What evidence best demonstrates the combined competency of Audio and Motion graphics?	The learner should provide Finished audio; Motion piece and explain how the work applies Recording basics, cleanup, mix and sync; Keyframes, text animation and compositing. Recall alone is insufficient.
NT-C-034-S03-EX02	Scenario/remediation	A learner reports completing Motion graphics but cannot produce Motion piece. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-034-S03, request Motion piece, and allow a new equivalent test only after remediation.
NT-C-034-S04-EX01	Evidence/application	What evidence best demonstrates the combined competency of 2D/3D foundation and Portfolio capstone?	The learner should provide Short experiment; Multimedia campaign and explain how the work applies Animation or 3D concepts and pipeline awareness; Brief, production, revision and presentation. Recall alone is insufficient.
NT-C-034-S04-EX02	Scenario/remediation	A learner reports completing Portfolio capstone but cannot produce Multimedia campaign. What should CareerTours do?	Mark the evidence Not Yet Verified, assign practice from NT-C-034-S04, request Multimedia campaign, and allow a new equivalent test only after remediation.

Live bank rule: Generate at least three times the live quantity for each section using the approved Creative blueprint. Human-review every scored item before initial production release.

NT-C-034 | Multimedia | Labs, Projects & Scoring Rubrics

Practical proof of learning and ownership

Level	Approved project	Skills evidenced	Required deliverables
Mini 1	Brand asset kit	Image and vector design	Brief; working/source file or reproducible environment; output; validation notes; reflection.
Mini 2	Short campaign video	Edit, audio and motion	Brief; working/source file or reproducible environment; output; validation notes; reflection.
Capstone	Multimedia campaign	Cross-media production and portfolio	Brief; working/source file or reproducible environment; output; validation notes; reflection.

Standard project rubric

Dimension	Weight	What earns credit
Problem framing	15%	Clear objective, user/business need, assumptions and success criteria.
Technical/design accuracy	25%	Correct methods, appropriate tools and sound decisions.
Completeness	15%	Required features, assets, data or workflow are present.
Testing and validation	15%	Important normal, edge, quality or failure cases are checked.
Evidence and reproducibility	15%	Source/working files, setup, inputs, outputs and version information are available.
Documentation	5%	Concise structure, instructions and limitations.
Viva / ownership	10%	Learner can explain decisions, demonstrate work and respond to a change request.

Require the brief, working/source files, design rationale, iteration evidence, technical quality and accessible export.

NT-C-034 | Multimedia | Career Roles, Evidence & Gap Actions

Explainable top-three occupation matching

Rank	Occupation	Default weighted skills	Minimum evidence	Gap action
1	Multimedia Designer - Junior	Graphics 34% [critical]; video 33% [critical]; motion 33%	Portfolio case study	If a critical skill is below 60 or portfolio case study is missing, return Improve First or Needs Evidence with the linked module/project.
2	Creative Content Designer	Brand 50% [critical]; campaign assets 50% [critical]	Creative series	If a critical skill is below 60 or creative series is missing, return Improve First or Needs Evidence with the linked module/project.
3	Video & Graphics Associate	Editing 34% [critical]; audio 33% [critical]; graphics 33%	Mixed-media reel	If a critical skill is below 60 or mixed-media reel is missing, return Improve First or Needs Evidence with the linked module/project.

Course readiness	45% section mocks + 20% mini projects + 25% capstone + 10% viva.
Role readiness	45% role-relevant mastery + 25% projects/capstone + 20% aligned mocks + 10% verified resume evidence.
Evidence confidence	Show separately; Apply Now requires at least 70.
Resume extraction	Use only relevant skills, projects, education, experience and portfolio evidence; minimise personal data before external model processing.

A student may be Apply Now for one mapped occupation and Improve First for another. Return independent evidence and gaps for each role.

NT-C-034 | Multimedia | FAQs, Misconceptions & LLM Response Pack

Course-specific retrieval and response patterns

Approved FAQ	Answer
Who is Multimedia for?	Creative learners seeking combined graphics, video, audio and motion skills.
What should I know before starting?	Basic computer use and access to suitable creative hardware.
How long is the approved learning journey?	20-24 weeks / 240-300 guided hours.
What will I be able to demonstrate?	Produce a cohesive multimedia campaign using image, vector, video, audio and motion workflows.
Does completion guarantee a job?	No. Completion and role readiness are evidence-based guidance; employment, placement, salary and employer selection are not guaranteed.
What if I fail a section?	CareerTours identifies the failed skill tags and module, assigns targeted practice, and permits an equivalent retest after remediation.

Misconception	Approved correction
Attendance proves mastery	False - require tests and observable practical/project evidence.
One total score proves every role fit	False - calculate each occupation using its weighted skills and evidence.
The LLM can add missing details	False - retrieve approved records or state that evidence is insufficient.
Course completion guarantees employment	False - never claim guaranteed job, placement, salary or interview.
Multimedia knowledge never changes	False - version-sensitive tools, laws, taxes, security and platform procedures require review.
